## PROJECT EXPERIENCE

### The Giving Tree — Community Website

- Allows users to share their needs, or to fulfill a need
- Gives people a place to find resources in their community
- Let's users search for specific needs, or ways to help close to them

### Tactical Construction Website Design — Construction Company

- Used bootstrap to design a website for a construction website.
- Developed an online platform for client's work to be viewed
- Created a place for potential customers to view services and set up an estimate

## WORK EXPERIENCE
